SUMMARY

Computer Science student at BINUS University specializing in Cyber Security, seeking an application security or security engineering internship. Project experience includes web privacy analysis and independent gesture and machine learning applications. Combines Python and JavaScript programming with CTF practice and student leadership. Available for an internship from February 2027.

EDUCATION

Bina Nusantara University | Bachelor of Computer Science **2024 - Present**

Cyber Security specialization | Expected graduation: 2028

PROJECTS

Cookies Risk Analyzer | Developer, team project **2026**

Stack: Node.js, React, Playwright, Docker | *Repository*

- Contributed as a developer to a web tool that detects and classifies cookies using headless Chromium.
- The tool aggregates privacy risk using an adapted OWASP-inspired scoring model.
- Provides heuristic GDPR and UU PDP privacy indicators that require manual review.

Boardly Gesture Whiteboard | Independent project

Stack: Python, OpenCV, MediaPipe, NumPy | *Repository*

- Built a webcam-based whiteboard with hand tracking and gesture controls for drawing and erasing.
- Used gesture debouncing and hysteresis with RDP-based shape recognition.

BISINDO Sign Recognition | Independent project **2025**

Stack: Python, PyTorch, MediaPipe, Transformer, PySide6 | *Repository*

- Built a desktop app to recognize 32 isolated BISINDO signs using landmarks and a Transformer model.
- Processes camera input and runs model inference locally on the device.

LEADERSHIP EXPERIENCE

First Year Program (FYP) Leader | BINUS University **2026**

- Led the faculty's orientation committee, supervising 22 Freshmen Leaders and 22 Freshmen Partners.
- Recruited and interviewed mentor candidates; coordinated orientation and university liaison work.

Digital Branding Coordinator | Keluarga Mahasiswa Hindu (KMH) BINUS **2026 – Present**

- Manage the organization's Instagram content and create visuals and videos using Canva and CapCut.

ACHIEVEMENTS AND ORGANIZATIONS

Top 17 | IFEST Capture The Flag Competition, Universitas Atma Jaya Yogyakarta **2025**

Member | Bina Nusantara Computer Club (BNCC) **2024 – Present**

Member | Google Developer Group on Campus BINUS @Malang **2024 – Present**

SKILLS AND LANGUAGES

Security: Burp Suite, JADX, MobSF, Frida, OWASP Top 10, OWASP MASVS; SQLi and IDOR labs
Security Practice: PortSwigger Web Security Academy, TryHackMe, Hack The Box, picoCTF
Programming: Python, JavaScript, HTML, CSS
Frameworks and Tools: React, Node.js, Playwright, Docker, PyTorch, MediaPipe, PySide6
Languages: Indonesian (Native), English (Intermediate, self-assessed)
